
Notes:

1. Front door unit is stationary. Cyc and ground row are directly US. Unit is approached and entered from SR side.
2. All flattage is typical stage flat construction.
3. Corner block and keystone placement is $\frac{3''}{4}$ from either edge.
2. Ensure that each flat is square by measuring the diagonals.
3. Glue corner blocks and keystones. Glue and staple face using $\frac{3''}{4}$ ($\frac{1''}{4}$ crown) and air nailer.
4. Ensure that grain on corner blocks and keystones crosses the joint in the perpendicular or at an angle.
